

# **Commercial Variable Refrigerant Flow**

System Retrofit Rebate Program

Wahkiakum PUD is helping our commercial customers reduce electric bills and make their businesses more comfortable through our Variable Refrigerant Flow System Retrofit Rebate Program. Variable Refrigerant Flow (VRF) heat pumps have similar applications as Ductless Heat Pumps (DHP), though they are more commonly used for multi-zone commercial HVAC applications and are available in larger tonnages.

### **PROGRAM GUIDELINES**

#### Customer eligibility:

- Pre-approval is required for all utility rebate programs prior to installation and expires sixty (60) days after approval – projects that require longer than sixty days to complete must obtain special approval from Wahkiakum PUD.
- Must be a current commercial electric customer of Wahkiakum PUD.
- Customer must participate in onsite inspection(s) and documentation as required by utility to verify eligibility and installation of materials and/or equipment.
- Funds for this program are limited. This program is offered on a first-come, first-served basis and is effective until funding is expended or the program ends. Wahkiakum PUD reserves the right to deny an application, modify or discontinue this program without prior notice at the PUD's sole discretion and reserves the right to determine eligibility and the right to verify equipment and materials installed. Incomplete projects may not qualify for rebates.

#### Pre-condition characteristics of conditioned space:

- Must be used primarily for commercial purposes.
- The space is conditioned by zonal or forced-air, electric-resistance heat as the primary heating source. No other heating sources are eligible.
- Spaces without heating, such as a garage or basement are not eligible for rebate.
- Must have a minimum of one year of active, electric services (new construction is not eligible).

## Post-condition, qualifying contractor and equipment selection:

- Installation contractor must be licensed, insured and bonded to work in Washington State (self-install does not qualify for rebate); visit <u>WA State Department of Labor & Industries</u> or contact Wahkiakum PUD to confirm contractor eligibility.
- The installed VRF system must have an AHRI certificate of product rating and meet BPA's efficiency requirements for both heating and cooling per below:

| -                                        | _       | 01                                                     |                           |
|------------------------------------------|---------|--------------------------------------------------------|---------------------------|

 Customer is responsible for checking with and fulfilling any state, county, city government and/or homeowner's association codes, ordinances, local conditions, restrictions, rules and regulations and obtaining any required building permits when installing measures.

#### REBATE RATES

Rebate amount cannot exceed the total cost of the project.

Variable Refrigerant Flow System Retrofit (BPA-Qualified) - \$1,000 per ton\*

\*Project reporting to BPA is based on whole tons of outdoor cooling capacity (to determine tonnage, divide installed BTU capacity by 12,000) and shall be calculated at a project level using one of the following methods (the two methods are provided to accommodate different types of equipment configurations and capacities):

- 1. Sum the outdoor unit cooling capacity from all VRF systems installed, then round to the nearest whole ton; or
- Round the outdoor unit cooling capacity of each individual VRF system to the nearest whole ton, then sum all rounded tons.

#### **DOCUMENTATION CHECKLIST**

#### **Prior to Installation**

To receive pre-approval prior to installation of Commercial HVAC measures, submit the following documents to Wahkiakum PUD before installation of equipment:

- Wahkiakum PUD Commercial Variable Refrigerant Flow Rebate Pregualification Request Form
- AHRI Certificate of Product Ratings

#### After Installation

The following documentation must be provided to Wahkiakum PUD within 14 days of installation:

- Equipment/contractor invoice showing:
  - measure requirements have been met (i.e. manufacturer, model number, type and quantity of equipment or product installed/used)
  - · order/purchase date
  - actual cost
- Verification installation has cleared all required building and/or electrical permits

To learn more, contact Wahkiakum PUD at 360-795-3266 or 360-465-2171 or visit <a href="www.wahkiakumpud.org">www.wahkiakumpud.org</a>

# Commercial Variable Refrigerant Flow Rebate Pre-Qualification Request Form

PRE-QUALIFICATION REQUEST: Pre-approval is required and expires sixty (60) days after approval.

| Name of business                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                     | Estimated Instal                                                                                     | I Date                                                                                                                                                                                                               |  |  |  |
