Packaged Terminal Heat Pump Rebate Multifamily Residential Program

Wahkiakum PUD is helping our residential customers reduce electric bills and make their homes more comfortable through our Packaged Terminal Heat Pump Rebate Program. Residential packaged terminal heat pumps (PTHPs) are an HVAC equipment type commonly used in multifamily applications. A PTHP retrofit replaces a packaged terminal air conditioner (PTAC) or zonal electric-resistance heating.

PROGRAM GUIDELINES

Customer eligibility:

- **Pre-approval is required for all utility rebate programs prior to installation** and expires sixty (60) days after approval – projects that require longer than sixty days to complete must obtain special approval from Wahkiakum PUD.
- Must be a current residential electric customer of Wahkiakum PUD.
- Customer must participate in onsite inspection(s) and documentation requirements as required by utility to verify eligibility and installation of materials and/or equipment.
- Funds for this program are limited. This program is offered on a first-come, first-served basis and is effective until funding is expended or the program ends. Wahkiakum PUD reserves the right to deny an application, modify or discontinue this program without prior notice at the PUD's sole discretion and reserves the right to determine eligibility and the right to verify equipment and materials installed. Incomplete projects may not qualify for rebates.

Pre-condition characteristics of space:

- Must be a residential multifamily building (multifamily buildings are five or more dwelling units within the same structure) and used primarily for residential purposes. No other residential structures are eligible.
- The space must be conditioned by a PTAC or zonal electric resistance heat as the primary heating source. No other heating sources are eligible.
- Spaces without heating, such as a garage or basement are not eligible for rebate.
- Must have a minimum of one year of active, electric services (new construction is not eligible).

Post-condition, qualifying contractor and equipment selection:

- The installed PTHP must have an AHRI certificate of product rating (all AHRI certified PTHPs qualify for this incentive regardless of the rated COP).
- Installation contractor must be licensed, insured and bonded to work in Washington State (self-install does not qualify for rebate); visit [WA State Department of Labor & Industries](https://www.wa.gov/departments/labor-industries) or contact Wahkiakum PUD to confirm contractor eligibility.
- Customer is responsible for checking with and fulfilling any state, county, city government and/or homeowner's association codes, ordinances, local conditions, restrictions, rules and regulations and obtaining any required building permits when installing measures.

REBATE RATES

Rebate amount cannot exceed the total cost of the project.

- Packaged Terminal Heat Pump Retrofit – \$200 per Packaged Terminal Heat Pump

DOCUMENTATION CHECKLIST

Prior to Installation

To receive pre-approval submit the following documentation to Wahkiakum PUD before installation of equipment:

1. Wahkiakum PUD Residential Packaged Terminal Heat Pump Pre-qualification Request Form
2. AHRI Certificate of Product Ratings

After Installation

The following documentation must be provided to Wahkiakum PUD within 14 days of installation:

1. Equipment/contractor invoice showing:
 - a. physical address of installation
 - b. order or purchase date
 - c. measure requirements have been met (i.e. manufacturer, model number, type and quantity of equipment or product installed/used)
 - d. size
 - e. quantity of equipment installed
 - f. actual cost
2. Verification installation has cleared all required building and/or electrical permits
